

Web Developer / Boston, MA

I've worked as a web developer for 6 years professionally (15+ years as a hobbyist!), and I specialize in WordPress.

React, vanilla JS, SCSS, PHP, webpack, Figma, GSAP

Experience

AUG 2022 - PRESENT

Full-Stack Developer / Northeastern University

In External Affairs' fast-paced newsroom, we continually work to improve user engagement and performance for Northeastern Global News and related microsites. I specialize in custom block development that enhances news content, but I also spend quite a bit of time maintaining & modernizing our large codebase.

OCT 2019 - AUG 2022

Front-End Designer / Image Conscious Studios

ICS is a creative agency specializing in web (mostly WordPress, occasionally Shopify). Most projects involved custom block & theme development, integrating 3rd-party APIs, and GSAP animations/scrollytelling. I also worked with PMs on estimates/timelines, interfaced with clients, and did some UI design work.

MARCH 2019 - OCT 2019

Apprentice / Image Conscious Studios

As an apprentice, I split my time between web development and UI design.

2017 - APRIL 2019

Marketing Coordinator / OS Fitness Clubs

Education

2012 - 2016

B.A. Interactive Media / Emerson College

Honors Program, Dean's List
